

Our strength is in fusing the links of Science & Technology, Test & Evaluation, and Analysis to enable our clients to make defensible decisions.

## DECISION ANALYSIS SUPPORT

Acquisition Planning and Strategy Development | Systems Engineering Plans (SEPs) | Requirements Traceability Matrices (RTMs) and Requirements Management | Standardized Risk Management | Manufacturing Readiness Assessments (MRAs) Configuration Management | Application of DoDI 5000.02 principles | Life Cycle Cost Estimates (LCCEs)/Analyses Acquisition Logistics and Sustainment | Quality Assurance | Technical Writing and Publication Development | Analyses of Alternatives (AoAs) | Integrated Master Schedule Development | Financial and Programmatic Support

## TEST & EVALUATION

Identification, development, and validation of standard test & evaluation methods | Development of Detailed Test Plans (DTPs) and testing protocols | Development, coordination, and approval of Test and Evaluation Master Plans (TEMPs) Design of Experiments (DOE) and statistical analyses | Reliability growth planning

## SCIENCE & TECHNOLOGY

Basic, applied, and developmental research | Market Surveys and Capabilities Assessments of emerging technologies Integration of science and engineering principles for prototype development | Chemical Personnel Reliability Program
